If Chicago futures do not trade during that session at US\$ 0.0005 per pound over the limit stipulated by Seller, no price fixing has taken place for that day, unless Buyer advises within 2 hours after the close that part or total of the pricing order given has been priced, and in that case Seller to accept quantity given by Buyer. Seller has the right to change pricing instructions during the session, provided Buyer has not already executed the original instructions by the time the new order reaches the floor.	38 39 40 41 42 43 44 45
For orders given or changed during the session of the Chicago Board of Trade, however, Buyer not to be responsible for execution. (ii) regardless the nominated quantity, it must be in multiples of 500 metric tons the nomination shall be always in round figures,	66
fractional figures not accepted;	67
(iii) nomination shall inform vessel's ETA, flag, age and ownership, in writing, in time for Seller to receive with minimum 15 clear days	68

demurrage rates are to be shown if clause 10.2 is alternatively chosen.	70
Seller has the right to reject nomination of a vessel whenever any or all the conditions and/or information above are not fulfilled. (except	71
for short-shipment, as defined herein, and contracts closed with total quantity less than 500mt);	72
Such rejection to be effected without delay. Loading obligation will be on the 16th day, at 08:00 hours, after nomination date, even if	73
loading commences earlier. With minimum of 10 days prior estimated arrival of vessel at loading port, Buyer to give pertinent	74
documentary instructions and vessel's destination.	75
Buyer to keep Seller informed of any delay in expected date of vessel's load readiness. Buyer can update ETA whenever vessel's	76
position demands. However, the range between original informed ETA at nomination and the updated one must be within 10 days. In	77
case Buyer overpasses the 10 days limit period, Seller has the right to consider it as a new nomination and start counting a new	78
preadvice. In case of ETA update of substituted vessel, the range between the ETA informed at the substitution notice and the updated	79
one must be within 5 days. In case Buyer overpasses the 5 days limit period, Seller has the right to consider it as a new nomination and	80
start counting a new preadvice. Nomination of vessel is irrevocable unless Buyer can prove "force majeure" or Seller agrees to the	81

established herein Seller has the right to reject the substitution	86
B) If condition stated in item "a" above is fulfilled, then obligation date will remain the same of the original nomination. However if	87
earlier than last reported ETA, substitution must reach shipper of the goods latest 3 business days prior to the new vessel's ETA. For	88
laytime purposes, time used to customs clean documents not to count as laytime.	89
C) Short Shipment quantity shall be defined as the difference between the quantity loaded and the quantity nominated. The loading	90
obligation date of the short shipped quantity will be established in accordance with the pre-advice agreed between the parties in the	91
Contract, failing specific arrangement, the general term of the 16th day after substitution date shall apply. The substitution of the short	92
shipped quantity shall fulfill the following conditions failing which Seller can reject:	93
(i) The Substitution shall be sent following the original string which must be mentioned in the substitution message.	94
(ii) Only one substitution will be accepted	95
D) Maximum 2 substitutions are allowed under this contract, however a third substitution is allowed only in case of short shipped	96
quantity.	97
E) If conditions stated in above items are not fulfilled, the substitution will be considered as a new nomination and subsequently a	98
new obligation date should be established.	99
F) In case of a third substitution, Seller has the right to reject same. In case Seller does not formally reject the substitution, it shall be	100
automatically considered as a new nomination with new obligation date.	101
9. WEIGHT: To be final at time and place of shipment per certificate/s issued by Independent Surveyor, based on figures ascertained	102
by measurement of shore tanks, where available, cost being for Seller's account. Buyer has the option, at his expense, and for his own	103
guidance, to request for joint weight control, advising the Seller in due time the name of the Independent Surveyor he is appointing.	104
For all effects and purposes results of the Seller's Independent Surveyor will be final. Any figure, other than the shore tanks, where	105
available, will not be acceptable.	106
10.GENERAL LOADING CONDITIONS: Captain and crew to collaborate in all quay movements necessary to accommodate shore	107
loading equipment in the respective tanks/spaces. Buyer to give nomination of vessel in accordance to loading port rules in force at	108
time and place of shipment.	109
Cargo to be loaded:	110

10.1 The lesser of: as fast as vessel can receive, or as fast as berth equipment can load. No time to count, however, if vessel gave Notice of Readiness in time and if not sufficient goods available to start loading on the 16th day as from 08:00 hours after vessel's nomination or when free berth becomes available, whichever later or if continuous loading of vessel has to be interrupted due to lack of cargo, Seller to pay detention as per the rate declared under Nomination Clause.	111 112 113 114
All extra berthing expenses due to cargo not being loadready to be for Seller's account.	115
10.2. At the following average rate which is to apply on the total cargo:	116
A) Seller undertakes to pump the oil into the vessel at a rate of minimum 80 metric tons (to be applied on this parcel) per running hour, always provided the vessel is in conditions to receive at this rate, otherwise demurrage as per Charter Party for his account, no despatch.	117 118 119
B) Time to count per running hour. Saturday afternoons, Sundays, and Federal and/or State and/or Municipal holidays excepted, unless used. On Mondays and on days after a holiday, time to start/restart counting at 08:00 hours (unless used). Seller shall not be responsible for any time lost due to act of God, strike, lockout, riots, civil commotion, labour stoppages at the port/s of loading or elsewhere preventing the forwarding of the goods to such port/s, breakdown of machinery and/or winches, power failure, fire or any other cause of "force majeure".	120 121 122 123 124
C) Notice of Readiness at loading port to be given until 17:00 hours during ordinary office hours or until 11:00 hours on Saturdays. Laytime to start counting whether in port or not, whether in berth or not, 6 hours after Notice of Readiness has been tendered. In case vessel is found unsuitable, laytime starts to count only when vessel is declared suitable in all respects to receive cargo.	125 126 127
Vessel/Buyer will present only one Notice of Readiness upon arrival at port, which is deemed to serve as sufficient load-notice to all shippers loading on that vessel.	128 129
Choice of berth sequence will be vessel's/buyer's option, unless otherwise ordered by Port authorities.	130
At second port of loading, if used, laytime to start counting at 08:00 hours on the next working day after vessel's arrival, whether in port or not, whether in berth or not. If loading berth is free and available, vessel is considered "arrived" when berthed fast alongside. When port is congested and/or berth unavailable, "arrival" is understood to be the moment the vessel drops anchor at the bar or normal anchorage. Shifting from roads to berth not to count as laytime.	131 132 133 134
Whenever the vessel nominated is loaded by more than one seller per berth and/or more than one bulk commodity per berth and/or from more than one berth per port, the time attributed to each individual berth shall be prorated among all the Sellers/commodities loading at that berth. At second and/or further berths time shall count from docking or the next regular working period (from the time the vessel was for all intents and purposes ready to start loading at that berth), whichever earlier. Time shall finish upon completion of total loaded at any berth.	135 136 137 138 139
Should however one or more shippers not have the goods ready for loading at the berth, then prorated counting of laytime to stop from the moment all goods are loaded by supplier/s who had goods ready, and time to count separately for the remaining parcel/s. Alternatively, if the vessel is not allowed to berth because one or more shippers do not have goods ready for loading, same shipper/s shall be first to load, and time for his/their account, up to the moment he/they have loaded all his/their goods, after which time to count prorated amongst shippers who had their goods ready for loading.	140 141 142 143 144
D) Time used in navigation between ports of loading, i.e. berth to berth, shall not count insofar as laytime computation goes.	145
11. EXTENSION/CARRYING CHARGES: In the event of any or all the goods not being on board the vessel by the last day of the period of delivery:	146 147
11.1 Buyer to claim extension of maximum 30 days, to pay carrying charges at the rate of US\$ 0.75 per metric ton per day for the first 15 days and US\$ 1.25 per metric ton per day for the following days. If Buyer has claimed extension but failed to tender suitable tonnage within the extension period, Seller shall declare Buyer in default, and in such case Buyer to pay Seller amount equal to carrying charges due for total extension period. However, Seller to fulfill delivery, even after extension limit, provided Buyer presents Notice of Readiness for suitable tonnage at loading port within the extension period. Carrying charges are to be calculated and paid up to shipment date even if loading is completed after the extension period. B) Vessels that arrived/tendered Notice of Readiness during the extension period: carrying charges are due from the first day of the extension period up to the date that the strike commences, and will again become due from the date that work is resumed, berthed or not.	159 160 161
C) Vessels that arrived during the extension period and the port is already on strike: carrying charges are due up to the date Notice of Readiness is tendered, and will again become due from the date that work is resumed, berthed or not.	162 163
11.2 Buyer to claim extension of maximum 30 days, to pay carrying charges at the rate of US\$ 0.75 per metric ton per day for the first 15 days and US\$ 1.25 per metric ton per day for the following days. If Buyer has claimed extension but failed to tender suitable tonnage within the extension period, Seller shall declare Buyer in default, and in such case Buyer to pay Seller amount equal to carrying charges due for total extension period. However, Seller to fulfill delivery, even after extension limit, provided Buyer presents Notice of Readiness for suitable tonnage at loading port within the extension period. Carrying charges are to be calculated and paid up to shipment date even if loading is completed after the extension period. Carrying charges as provided above are construed in the nature of liquidated damages and, as such, that no further proof of damages shall be required to substantiation thereof. The foregoing rate includes storage, interest and insurance costs.	164 165 166 167 168 169 170 171

A) If nominated vessel arrives/tenders a valid Notice of Readiness by 17:00 hours of the last day of shipment, carrying charges are not due, even if goods loaded after shipment period. Otherwise carrying charges will be due until shipment date.	172 173
A.1) If nominated vessel arrives/tenders a valid Notice of Readiness by 17:00 hours of the last day of the shipment period, but Seller's obligation to load starts on the extension period, carrying charges will be due until shipment date	174 175

C) Substituting vessels: If substituting vessels were not originally programmed to the berth under this contract on Notice of Readiness date, carrying charges will be due until shipment date, unless new berth scheduled within shipment period.	177 178
D) In case nominated goods are loadready and vessel is called to berth by Port Administration but for any reason beyond Seller's control, vessel does not berth, carrying charges shall be due in total even if vessel tendered Notice of Readiness within shipment period.	179 180 181
